The **Fann Mountains** (also known as the **Fanns**) - a land of turquoise **lakes**, clouded **peaks** and ancient legends - is a unique part and one of the beautiful regions of the **Pamir Mountains**. Here most clear and unbelievably wonderful lakes are fringed with highest sharp rocky peaks which don't take off their snowy crowns during long time. Here almost moon's landscapes are enlivened with tangles of juniper's trunks twisted by some strange powers of wind and sun into improbable figures. Here amazing peaks Energia and Chimtarga are rising above Mutny («turbid») lakes. Another advantage of Fan Mountains is its **transport availability** for travelers.

This trekking route runs through **the most picturesque paths of Fann Mountains**. Glorious valleys of **Zindan River** and Archimaidan River, mysterious beauty of **Bolshoi Allo Lake** - a giant marine-blue cup framed with extensive vertical rocks sheerly plummeting into water, - beautiful chain of the **Kulikalon lake**, **Alaudin lake** and Iskanderkul lake, astonishing **waterfalls**, the fairy of wonderful 5,000-odd metres high peaks: Chapdara, Bolshaya Ganza, Malaya Ganza, Mirali, Maria and others are sure to stay among your best memories of all time. The **maximum altitude of the entire trek** is 4780m (ChimtargaPass).
