Tianluokeng Tulou Cluster

On 7th July 2008, Tianluokeng tulou cluster was inscribed as one of 46 UNESCO World Heritage Sites.

The cluster consists of a square earth building at the center of a quincunx, surrounded

by four round earth buildings

Five Earth Buildings:

1. The square earth building named Buyun building (Reaching the Cloud Building) at the center of the quincunx. It was the first earth building at this site, built in 1796. It is three storeys high, each storey has 26 rooms, four sets of stairs, and a circular corridor in front of the rooms. The Buyun building was burnt down by bandits in 1936, and rebuilt in 1953 according to the original shape.
2. The Hechang building, a three-storey-high round earth building.
3. Zhenchang building was built in 1930, has three storeys, round shaped, 26 rooms per storey.
4. Ruiyun building, built in 1936, three storeys, 26 rooms per floor.
