Valid Till 31 Dec 2018

DAY 01

BLED – BOHINJ – LJUBLJANA

- Arrival to Ljubljana airport
- 9.00 – 10.00 Transfer to Bled
- 10.00 – 12.00 Bled sightseeing with local guide, including entrance to the castle
“Slovenia has only one island but its uniqueness makes it more attractive than many an archipelago. Sheltered by picturesque mountains, the island reigns in the middle of an Alpine lake. Its charm has made it a symbol for centuries of a town to which guests from all over the world love to return. This town, which has already existed for a thousand years, is Bled. The town, already famous at the beginning of the 20th century as the most beautiful health spa of the then Austrian empire, attracted the European aristocratic elite. After WWII, one of the most attractive state residences of the former regime was located in Bled. Many of the world’s most important people thus enjoyed the beauties of Bled. And now, for decades already, the pilgrims of the new age have been discovering this town.”

***** Including entrance to Bled castle**

- 12.00 – 13.00 Free time for lunch
- 13.00 – 14.00 Transfer to Ljubljana
- 14.00 – 16.00 Ljubljana sightseeing with local guide
“Ljubljana is the capital of a state, but it is small and pretty, easy to get around, and full of surprises. While during winter it is its dreamy central European character that prevails, during summer it has a relaxed Mediterranean feel to it. It is remarkable for its rich tradition, youthful vibrancy, cultural creativity, feel for entertainment, and numerous green spaces.

Ljubljana has preserved evidence of all the five millennia of its history, including, among others, the remains of the Roman city of Emona and the old city centre with its medieval castle and beautiful buildings with Baroque façades, decorative portals and uneven roofs. Other significant bits in the mosaic of Ljubljana are its picturesque bridges across the river Ljubljanica and its vast Tivoli park, stretching into the very city centre.

In the second half of the 20th century, it was the world famous architect Jože Plečnik that put an indelible personal stamp on his native city, and the so called Plečnik's Ljubljana ranks among the 20th century's most prominent total works of art.”

It is the largest cave in the “classic karst” and the most visited show cave in Europe. In 1872 railway lines were laid in the cave; electricity arrived in 1884. Today you begin your visit aboard the cave train; the electric lighting allows you to admire the size and splendour of the underground world, where the geological past is recorded in a unique manner. Visitors to the cave are dazzled by a wealth of speleothems: calcite formations, stalactites and stalagmites abounding in a variety of shapes, colours and age. The constant temperature in the caves ranges from 8 to 10° C.”

- 13.00 – 16.00 Transfer to Zagreb

“Zagreb has served as the cultural and political focus of the nation since the Middle Ages. The city grew out of two medieval communities, Kaptol to the east and Gradec to the west, each sited on a hill and divided by a (long since dried up) river. Zagreb grew rapidly in the nineteenth century, and many of the city’s buildings are well-preserved, peach-coloured monuments to the self-esteem of the Austro-Hungarian Empire. Zagreb is more than just a gateway to Central Europe; it is a melting pot. The city incorporates all the benefits of the West with the promising opportunities of the developing regions in South and East Europe, making it an ideal location for your company. A vibrating city on the river Sava, at the heart of a politically and economically stable market, Zagreb has a long history, rich culture, offers high quality life-style, excellent prospects and a highly educated population boasting over 1 million people. The city offers a uniquely vivacious café life and a year-round programme of heavy-duty art exhibitions and at least one genuine cultural flagship in the shape of the recently opened Museum of Contemporary Art. The Croatian capital’s growing reputation for arty fun also extends into its nightlife, with cutting-edge clubs, live gig venues and summer festivals.”

It is forested mountain area throughout which, one under another, line sixteen beautiful lakes and ponds of crystal blue-green colour. They are filled with water from many streams and brooks, interconnected with foamy cascades and murmuring waterfalls. Throughout the ages water from these lakes was breaking, corroding and melting the rocks and beds through which they have flown. Through sedimentation of calcium carbonate from the flow and through interference of special algae and mosses, spongy kind of rock, sedra or travertin, has been and still is created. Near the lakes there are a couple of caves, and there were even discoveries from ancient history. The national park covers the area of 29.482 hectares in size, most of which falls of on woods, then grasslands with village spaces and waters. This natural resource is rich with diverse flora and fauna. It is a great place for a stop over if you’re on your way down to the Croatian coast or have visited the Plitvice National Park just across the border.
