

Langkawi Platform Snorkeling Day Expedition

Langkawi coral is the first coral platform in Malaysia which located in Pulau Payar Marine Park. The coral platform has been shaped to preserve the natural beauty of the marine park and to have a less impact on the fish's population and local corals. Langkawi Coral will gives you full satisfaction of visiting since whatever you do, sure will have some activities to be done there. A lot of activities floating like a tiny island in the sea, it fully equipped to help facilitate all the activities done with comfortable staring from scuba diving, snorkelling, fish watching and coral viewing to sunbathing.

The most famous in Langkawi coral is platform, the ship will stop at the middle of the sea. Enjoy a swim among the schools of fishes and experience an underwater view of a world filled with colourful coral reefs without getting wet on Langkawi Coral's floating platform equipped with an underwater observation facility.
