

Kuala Lumpur's Authentic Experience

Ideal for budget travelers who have limited time and yet wish to see the city's oldest settlement, Kampong Bharu. This is a century old rustic Malay village in the heart of the city. This Malay enclave is rich in history, traditions and customs. Interesting things to see includes the traditional timber houses, street food, trades and the oldest mosque. You will explore Chow Kit Market, one of the oldest busiest markets for fresh products in the city. This is a great place to learn about spices and herbs used in Malay cooking. The oldest Sikh Temple is found in the neighborhood.

Do you prefer a cycling route for 2 hours and still wish to know typical Malay history and culture at places, which are not easily to be found? Then is this your tour.

We start at 9.00 am at the Malaysian Tourism Centre, MaTIC, 109 Jalan Ampang, 50450 Kuala Lumpur and will be back there at 11.00 am.
