

## 2 Days Antarctica Overnight Program

---

*You will be part of an unforgettable experience that will take you to one of the farthest points on Earth. The coldest, highest, windiest, driest and less populated continent. A continent that has been completely sunk by ice, which has not only shaped its topography, but has also influenced its evolution. This place is one of the only places on earth that is still pristine. It is therefore, why, it has become an important reserve for the biosphere. Its unique beauty contrasted with its extreme weather conditions, make it an exotic and enchanting destination for all those privileged travelers who are planning a visit to the end of the world. The Antarctica is an ecological wonder that mesmerizes explorers, scientists and travelers. On our aircraft you will fly over the Magellan Strait, Tierra del Fuego Island, Darwin Mountain Range, the mythical Cape Horn and the raft Drake Passage. Finally arriving at King George Island, gateway to the white continent, where most of the antarctic scientific bases are located. Here you can also find the Chilean village "Villa Las Estrellas", place where several Chilean families live all year round. You will visit the impressive landscapes of the white continent, see part of its wildlife and experience the daily life of men populating this territory in the name of science and investigation.*

### Previous to the program

At your arrival to Pta. Arenas we will provide the transfer from the airport to the hotel with 04 nights of accommodations included in the price, based in single or double room, at Cabo de Hornos hotel or similar. This booking includes a dinner or lunch menu daily per person. This apply for the Full day and Overnight programs.

The same day a representative from our company will meet the group at the hotel for a briefing about the Antarctic program together with a welcome cocktail. The place and time will be confirmed a day before. This briefing will allow the passengers to meet the other participants in the tour and clear some possible doubts or questions about the trip.

The arrival in Pta. Arenas the day before of the trip must be not later than 5 pm in order to be part of the briefing. Passengers without the briefing will not be allowed to fly.

**Day 1:**

A transfer will pick you up from your hotel to Punta Arenas airport to board the airplane with destination to King George Island (Antarctica).

At your arrival you will be welcomed by our guide who will take you on a tour visiting the following venues:

- Villa Las Estrellas (first settlement inhabited by civilians)
- Orthodox Russian Church (At Bellingshausen Station)
- Navigation on a zodiac boat to Ardley Island to visit some penguin colonies
- Navigation around Collins glacier

After your day full of activities you will be taken to the Ice Camp based on Collins glacier, located about 5 kilometers (6 miles) from the runway. Here you will overnight. This Ice Camp includes a thermal tent (module) as a dining room for the whole group, one special tent as basic toilet and three different small thermal and special tents (small modules) for 2 people each to overnight.

**Day 2:**

Today you will have a walk to the "Elefanteras" (sea elephant colony) located in the Drake Passage Area. There you will visit the Chinese station "Great Wall".

It is also possible to visit other tourist attractions (this will be decided upon on that day, it depends of the weather conditions). After that you will return to Punta Arenas.

**END OF SERVICES.****The program:**

- Following the activities of the first day, passengers will be

transported to a field like "Ice Camp" based near Collins Glacier, located 5 kms. of the track.

The "Ice Camp" is a main heating tent (module) enabled thermal dining tent for basic hygiene and thermal tents based on 2 people each.

- The next day a hike to "The Elefantera" to watch elephant seals and other species in the area. - Visit to the area of scientific base.

- If climatic conditions allow, we can visit other areas of interest before returning to Punta Arenas.

The entire program, both accommodation, tours, hiking and sailing, are subject to current weather conditions and can be changed.

During the visit, it is our duty not to damage the flora and fauna. The care nature will be our legacy for future generations.
