We will depart early in the morning to the boat pier from where we will start our excursion to Laguna Bocatorito. This west island is the occasional refuge for the hawksbill trunk green turtles. Here we will have the opportunity to watch dolphins jumping and playing. We will then practice snorkeling at Cayo Coral, where we will also enjoy a tasty lunch (no included) in one of the beach restaurants.

Finally, we will visit the Zapatilla Island that is situated on top of a coral platform within the Isla Bastimentos National Marine Park. This park is famous for its beautiful white sandy beaches, clear turquoise waters, coral reefs and small shady forests. The islands name derives from the Zapatilla fruit that grows here.
