City tour & Miraflores locks

This is a guided tour to the most important and typical spots of Panama. During this tour we will be able to have a quick to the Contemporary Panama, then we will move on to the Panama Canal where we will have a guided tour that will allow us to appreciate the history and function of this engineering structure considered to be the largest of this century and the "Eighth Wonder of the World". With a little bit of luck, we will be able to observe the passage of a ship through the Canal.

Afterwards, we will head to Causseway (3 islands joined by the land that was digging took off from the canal construction), and Casco Antiguo (colonial Panama) where we will have the pleasure of touring its narrows streets, plazas and parks that still conserve much of the country's history. Our visit will extend up to the France Plaza, The Vaults, the San Jose Church with its impressive gold altar, the "Arco Chato" (flat arc), and the cathedral among others.
